Ready-Made Image Generation Prompts with Examples — Series 1 (using ChatGPT)

# سبک تصویری 01: پولارويد کارتونی شخصیت محور

Create a cute cartoon-style portrait of a young
{gender} with big, expressive eyes, wearing a
{style} outfit inspired by {local culture or Iranian fashion
element}. The character has a
{facial expression} and is posed in a {pose}, placed inside a
Polaroid-style frame. Add soft shadows, a clean white
background, pastel color palette, and gentle 3D shading.
Let the character reflect a modern {localization – e.g.,
Iranian teen/young artist/student} vibe. Format the image
in {desired aspect ratio or resolution} for {usage – e.g.,
Instagram Story, profile picture, etc.}.

Create a cute cartoon-style portrait of a young girl with
big, expressive eyes, wearing a modern Persian casual
outfit inspired by Tehran street fashion.
 The character has a happy smile and is posed in a peace
sign pose, placed inside a Polaroid-style frame.
 Add soft shadows, a clean white background, pastel
color palette, and gentle 3D shading.
 Let the character reflect a modern Iranian teen vibe.
 Format the image in 9:16 aspect ratio for Instagram
Story.

Create a cinematic portrait of a young {profession or character type} wearing a {style} outfit inspired by {local or cultural reference – e.g., Iranian, traditional, urban Tehran style}.
The character is standing in {location – e.g., foggy street in Isfahan / old Tehran alley / abstract background}, with {lighting – e.g., soft golden light / harsh backlight / twilight ambiance} and captured from a {camera angle – e.g., close-up / low-angle shot}.

Make it ultra-realistic, with {resolution – e.g., 4K, 8K}, moody atmosphere, shallow depth of field, cinematic color grading like a {film style – e.g., noir / Iranian drama / classic movie}. Add film grain texture for authenticity. Render the image in {aspect ratio or format – e.g., 9:16 for Instagram Story / 4:5 for post / square format for avatar}.

Create a cinematic portrait of a young calligrapher wearing a traditional Persian outfit inspired by Iranian Safavid-era style.
The character is standing in an old Tehran alley, with soft golden light and captured from a close-up camera angle.
Make it ultra-realistic, with 8K resolution, moody atmosphere, shallow depth of field, cinematic color grading like an Iranian drama.
Add film grain texture for authenticity.
Render the image in 4:5 format suitable for an Instagram post.

Create a highly detailed isometric 3D illustration of
displayed as a cutaway {City or Region Name} diorama on a slice of land.
Include notable landmarks such as {Landmarks, e.g., Si-o-se-pol, Milad
Tower, Arg-e Bam}
surrounded by {Environmental Elements, e.g., trees, walking paths, river,
traditional bazaar}.
The terrain should be stylized in a low-poly and handcrafted miniature model
style,
featuring visible soil layers, tiny details, and soft shadowing.
Use {Lighting Type, e.g., warm golden light, early morning light, dramatic
sunset lighting}.
Render the artwork in {Aspect Ratio, e.g., 1:1, 9:16, 16:9} for {Usage, e.g.,
desktop wallpaper, Instagram story, educational poster, tourism brochure}.
Make sure the scene has a cozy, storytelling vibe and high-resolution finish.

Create a highly detailed isometric 3D illustration of
displayed as a cutaway Isfahan diorama on a slice of land.
Include notable landmarks such as Si-o-se-pol, Naqsh-e
Jahan Square, Chehel Sotoun Palace
surrounded by lush gardens, walking paths, a river, and a
traditional bazaar.
The terrain should be stylized in a low-poly and handcrafted
miniature model style,
featuring visible soil layers, tiny details, and soft shadowing.
Use warm golden light.
Render the artwork in 9:16 for Instagram story.
Make sure the scene has a cozy, storytelling vibe and
high-resolution finish.

Create a set of cute cartoon-style character stickers of a {profession} in Iran, drawn in chibi style, wearing a {style} outfit inspired by local culture. Include 3 different emotional expressions: {expression1}, {expression2}, and {expression3}. Use a clean white background, bold outlines, and flat pastel colors. The composition should be sticker-friendly, optimized for {platform like Telegram, WhatsApp, or Instagram Stories}. Render the artwork in {image size or aspect ratio} format, suitable for modern Iranian visual preferences.

Create a set of cute cartoon-style character stickers of a carpet weaver in Iran, drawn in chibi style, wearing a traditional Persian outfit inspired by local culture.
Include 3 different emotional expressions: happy, focused, and sleepy.
Use a clean white background, bold outlines, and flat pastel colors.
The composition should be sticker-friendly, optimized for Telegram.
Render the artwork in 1080x1080 format, suitable for modern Iranian visual preferences.

سبک تصویری 05: فیگور کالکتیبل (Collectible Character Toy)

Create a 3D-rendered collectible figure of a cute {gender} character, standing inside a transparent plastic display dome. The figure is holding a {prop}, and is wearing a {style} outfit inspired by Iranian/local culture. The character has big shiny eyes and a soft expression, designed in a chibi-style toy look with a glossy finish. The display base is labeled with the name "{character name}" in Persian or English. Use a clean studio-style background, with a {image size or aspect ratio} suitable for {platform} (e.g., Instagram Story 9:16 or Product Listing 1:1). Make it look like professional product photography, with soft shadows and appealing lighting.

Create a 3D-rendered collectible figure of a cute female character, standing inside a transparent plastic display dome. The figure is holding a small Persian carpet, and is wearing a traditional Isfahani outfit inspired by Iranian/local culture. The character has big shiny eyes and a soft expression, designed in a chibi-style toy look with a glossy finish. The display base is labeled with the name "Golbanoo" in Persian. Use a clean studio-style background, with a 1:1 image size suitable for Product Listing. Make it look like professional product photography, with soft shadows and appealing lighting.

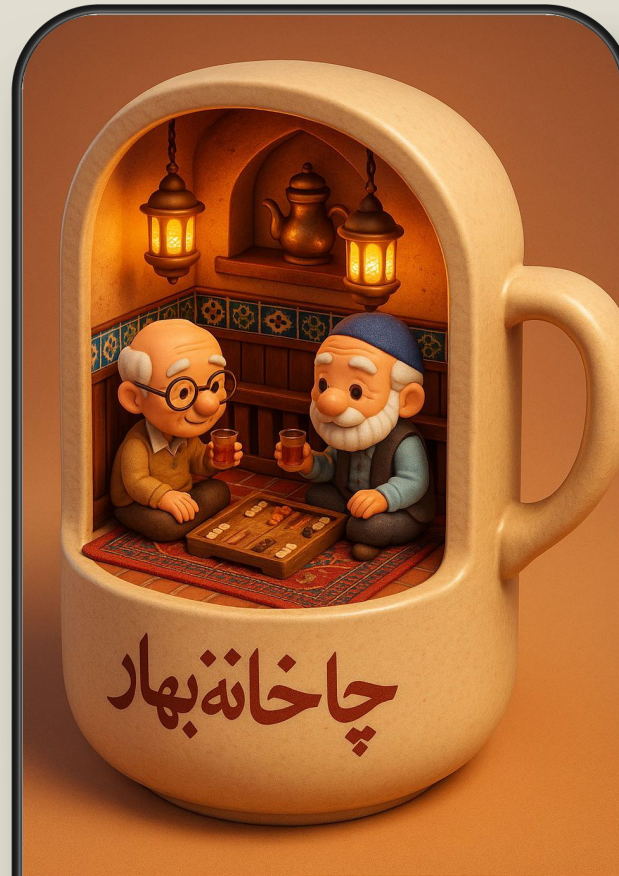

آوینا

Create a 3D cartoon-style scene of a cozy {miniature environment} built inside a {real everyday object}, with the outer shell cut open to reveal the detailed interior. The scene should include {types of furniture and interaction between characters}, soft ambient lighting, and a Persian-style {logo or brand} printed on the outside of the object.

The overall design should feel like a handcrafted Iranian-style diorama, with attention to cute details and cultural touches.

Render the image in {aspect ratio and platform usage – e.g., 1:1 for Instagram post, 9:16 for Story, or digital presentation}.

Use warm, cozy colors and subtle shadows to create an inviting vibe.

Create a 3D cartoon-style scene of a cozy tea shop built inside a giant Persian teacup, with the outer shell cut open to reveal the detailed interior. The scene should include small tables, cushions on the floor, a samovar in the corner, and characters chatting and sipping tea. Soft ambient lighting and a Persian-style "چایخانه گل بهار" (Filoger Teahouse) logo printed elegantly on the side of the cup. The overall design should feel like a handcrafted Iranian-style diorama, with attention to miniature traditional decor elements like carpets and lanterns. Render the image in 1:1 aspect ratio, optimized for Instagram posts. Use warm, cozy colors like deep reds, golden yellows, and earthy tones with subtle soft shadows to create a nostalgic and inviting vibe.

(Luxury Doll Packaging) :سبک تصویری 07

Create a 3D-rendered luxury fashion doll of a stylish {gender}, designed with Iranian aesthetics, standing upright inside a premium product-style packaging box.
The doll is wearing a {style of outfit} and is accessorized with {accessory1}, {accessory2}, and {accessory3}, neatly placed beside it inside the box.
The name "{character name}" is elegantly embossed on the packaging in Persian script.
Use {color theme} and keep the lighting clean and soft to emphasize gloss and luxury.
Render the image in {image size or aspect ratio}, suitable for {platform, e.g. Instagram Story, digital store, promotional banner}.
The overall look should resemble a high-end collectible product with a sleek and photorealistic finish.

✅

Create a 3D-rendered luxury fashion doll of a stylish woman, designed with Iranian aesthetics, standing upright inside a premium product-style packaging box.
The doll is wearing a traditional Persian turquoise embroidered gown and is accessorized with a gold necklace, a silk scarf, and a miniature Persian handbag, neatly placed beside her inside the box.
The name "نرگس" is elegantly embossed on the packaging in Persian script.
Use a color theme of royal blue and gold, and keep the lighting clean and soft to emphasize gloss and luxury.
Render the image in 1:1 aspect ratio, suitable for Instagram posts and digital store listings.
The overall look should resemble a high-end collectible product with a sleek and photorealistic finish.

Create a stylized miniature 3D model of the {name of historical building or place}, placed inside a collectible product-style packaging box with a transparent window on the front.
The miniature building should be accurately modeled with clean architectural lines and placed on a small base, styled like a souvenir display.
The front of the packaging box features the name "{building name}" and the city name "{city name}" in Persian or English.
Use a soft {background color of choice} background with studio lighting and gentle shadows.
Design the overall look like a high-end souvenir product with a minimal, elegant vibe.
Render the final image in {image size or aspect ratio} format suitable for {platform, e.g., Instagram, online store, or educational presentation}.

Create a stylized miniature 3D model of the Persepolis Gate of All Nations, placed inside a collectible product-style packaging box with a transparent window on the front.
The miniature building should be accurately modeled with clean architectural lines and placed on a small base, styled like a souvenir display.
The front of the packaging box features the name "دروازه ملت" (Gate of All Nations) and the city name "Persepolis" in Persian script.
Use a soft beige background with studio lighting and gentle shadows.
Design the overall look like a high-end souvenir product with a minimal, elegant vibe.
Render the final image in 1:1 format suitable for Instagram posts and online souvenir shops.

مسجد جامع یزد
Yazd

(Couple Doll Box) سبک تصویری ٥٥: فیگور عروس و داماد داخل بسته بندی عروسکی

Create a 3D-rendered collectible figure box featuring a cartoon-style Iranian couple (bride and groom) standing side by side, smiling sweetly.

The bride is wearing a {type of traditional Iranian wedding dress, e.g., Kurdish local dress, minimalist white gown with a delicate veil}, and the groom is wearing a {type of groom's outfit, e.g., traditional Iranian suit, modern suit with a tie}.

Accessories like {first accessory, e.g., flower bouquet, candle, Quran book}, {second accessory, e.g., ring box, heart-shaped balloon, wedding tray}, and {third accessory, e.g., small Persian carpet, framed keepsake, wedding invitation card} are placed neatly inside the box alongside the figures.

The packaging is labeled at the top with the names "{bride's name} & {groom's name}" in Persian calligraphy style, and the overall design is stylized like a wedding gift or premium collectible toy box.

Use a {background color, e.g., light cream, pearl white, or soft warm tone} background for a neutral and elegant look.

Apply soft and warm lighting to evoke a romantic, cozy vibe.

Render the final image in {image size or aspect ratio, e.g., 1:1 for post, 9:16 for story} format suitable for {target platform, e.g., Instagram, online shop, or presentation slides}.

Create a 3D-rendered collectible figure box featuring a cartoon-style Iranian couple (bride and groom) standing side by side, smiling sweetly.

The bride is wearing a minimalist white gown with a delicate lace veil, and the groom is wearing a modern navy-blue suit with a slim black tie.

Accessories like a red flower bouquet, a small silver ring box, and a miniature Persian carpet are placed neatly inside the box alongside the figures.

The packaging is labeled at the top with the names "Reza & Rozhin" in Persian calligraphy style, and the overall design is stylized like a premium wedding collectible toy box.

Use a light cream background for a neutral and elegant look.

Apply soft and warm lighting to evoke a romantic, cozy vibe.

Render the final image in 9:16 format suitable for Instagram stories and wedding gift online shops.

Create a 3D-rendered conceptual image of a large capsule featuring miniatures of {product type, e.g., shoes, t-shirts, bags} inside it.
The capsule has a {capsule color, e.g., green, red, black} top and a transparent lower half displaying the products.
Each miniature item should be designed in {style, e.g., minimalist, luxury, sports} style and colored {product color scheme, e.g., white, pastel, bold colors}.
The capsule is branded with the {brand name} logo printed clearly on the capsule's top surface.
Use a {background color, e.g., light grey, soft gradient, pure white} background for a clean studio look.
Apply {lighting type, e.g., soft, diffused, dramatic} lighting to highlight the capsule's textures and give it a premium feel.
Render the image in {image aspect ratio, e.g., 1:1 for Instagram posts, 9:16 for Instagram Stories} suitable for {platform, e.g., social media ad, e-commerce site, portfolio}.

Create a 3D-rendered conceptual image of a large capsule featuring miniatures of **white sneakers** inside it.
The capsule has a **black** top and a transparent lower half displaying the sneakers.
Each miniature item is designed in a **modern sporty** style and colored **white with subtle grey details**.
The capsule is branded with the **Nike** logo printed clearly on the capsule's top surface.
Use a **light grey** background for a clean studio look.
Apply **soft, diffused** lighting to highlight the capsule's textures and give it a premium feel.
Render the image in **1:1** aspect ratio suitable for **Instagram posts and online shop promotions**.
